AFFAIRS OF THE RAILWAYS.

Personal, Local and General Notes. The general offices of the Alabama Midland road have been removed from Bainbridge, Ga., to Montgomery, Ala.

Receiver Malott and his corps of officials will, on Tuesday, Oct. 29, start on an in-spection trip over the Chicago & Atlantic. A train of new cars a day is now passing through here, built at the Terre Haute car-works, for the Wheeling & Lake Erie

The Indianapolis car-works will to-day commence on a contract to build 250 coal cars for the Lake Shore road, delivering them at the rate of ten a day. It is stated that the monthly statement

will show that the tonnage of the Pennsylvania lines in September was 11 per cent. in excess of that of September, 1888. The Louisville, New Albany & Chicago leases of the Louisville Southern road will next Monday put on two passenger trains each way between Louisville and Lexing-

ton, Ky. The boycotting of the Louisville, New Albany & Chicago road by the Louisville & Nashville company, it is believed, will lead to an ugly rate war between Chicago and the South.

M. C. Markham, assistant traffic manager of the Illinois Central road, and W. E. Keepers, assistant general freight agent of the same road, were in the city yesterday, en route to Cincinnati.

George W. Hibbard, general passenger and freight agent of the Mexican Central road, has resigned, and next month will return to the United States to take a railroad position offered him.

The Union Pacific company has com-menced building its own passenger engines, but will purchase its heavy freight engines from locomotive-works. This company now employs 600 men in its locomotive de-

R. B. Ireland, superintendent of the signal service on the New York division of the Pennsylvania road, with headquarters at Trenton, N. J., is visiting friends in this State for a few days. His former home was Lafayette.

It is stated that negotiations between the Big Four and the Cincinnati, Sandusky & Cleveland Railroad Company have been dropped, which means that the C., S. & C. will be paralleled between Springfield and Columbus, O. Under the new time schedule four of the

trains of the L., N. A. & C. road make the run between Chicago and Indianapolis in six hours, and, in connection with the C., H. & D., between Chicago and Cincinnati in nine hours.

C. H. Pinder, passenger conductor on the Vandalia, who, about two years ago, was obliged to give his train up on account of ill health, has returned from his healthseeking trip in good trim, and will, on the first of next month, take his train again.

The Chesapeake & Ohio will build a branch to Gauley mountain, which will let the road into some of the most valuable coal mines in West Virginia. Levi Morton and Abram S. Hewitt, of New York, are large owners in these mines, and are en-couraging President Ingalls in building

The Pennsylvania Company has entered into a traffic arrangement with the St. Paul & Duluth road to haul east and west-bound freights. The Pennsylvania will aid in the building of a line of steel rapid transit steamers, to run from Duluth in connection with the St. Paul & Duluth and the Pennsylvania lines.

The Illinois Central, the Boston & Albany and the New York, New Haven & Hartford roads are looked upon as being the most independent and arbitrary roads in the country. Connections must meet the views of the managements of these roads, be they for the best interest of the connections or not.

The Hot Springs railroad, twenty-two miles in length, extending from Malvern, Ark., on the line of the St. Louis, Iron Mountain & Southern, to Hot Springs, Ark., was yesterday changed from flarrow to standard gauge. The change was made in three hours' time. Through cars can now be run to Hot Springs.

Two of the Big Four trains, under the new schedule, make the run from Indianapolis to Chicago in five hours and fifty minutes. That this is not the best that the road can do is evidenced in the fact that the other day the noon train left Indianapolis forty-four minutes late and ran into Chicago on time, making the run in four hours and six minutes.

It is stated that with the shortening up of the time between Indianapolis and Chi-cago by the Big Four and the Monon, the Pennsylvania Company is beginning to bristle up. General Superintendent Miller claims that whenever they choose to act, quicker time can be made by them between Chicago & Indianapolis than over either of the lines of their competitors.

The magnificent private car built by the Pullman company, a few months ago, for "California" Shaw, who expected for years to be president of the Hocking Valley road, has been purchased by President Brice, repainted outside and lettered "Lake Erie & Western." This is said to be the most expensive and complete private car in this country. The car still bears the name "Argonaut."

Assistant General Manager Hill has given instructions that the T., H. & I. division of the Vandalia be put in first-class condition to move the heavy traffic which is in prospect for the winter months. Four construction trains are now distributing gravel for ballasting along the line. During the past summer a good deal has been done on this division in improving the structures which cross the water-ways.

J. Paul, formerly a passenger conductor on one of the Indianapolis roads, now on the Texas & Pacific, has been promoted to the position of trainmaster of the road, Promoting conductors to the position of train masters is becoming quite common, and invariably they make good men for the position. John Swischer, trainmaster on the Cleveland division of the Big Four; James Cummings, on the Ohio, Indiana & Western, and M. Mounts, on the C., H. & D., were all promoted from passenger conductors to train was trained. ductors to train masters.

The Cincinnati, Hamilton & Dayton proposes to bring Cincinnatians through on their elegant trains to-day from Cincinnati to Indianapolis in three hours. The train will arrive at the Union Station at 12:30, and will return to Cincinnati at 3:30. Two of the trains which are to form the new equipment over the C., H. & D. and L., N. A. & C. between Cincinnati and Chicago, passed through the city yesterday en route for Cincinnati, and to say that no handsomer trains were ever handled at the Union Station is no exaggeration.

The annual meeting of the stockholders of the Cincinnati, Sandusky & Cleveland railroad, yesterday, re-elected J. S. Farlow and N. W. Pierce, of Boston, and J. H. Thomas, of Springfield, directors. The old officers were re-elected, as follows: J. S. Farlow, president; Isaac Tenno, vice-president; J. T. Moore, secretary and treasurer and general manager; A. P. Simpson, assistant, treasurer and transportation agent at ant treasurer and transportation agent at Boston. The annual reports show the road to be in the most flourishing condition in

The Union Railway management will not have the local sleeping cars properly placed until they are set on the ninth track under the sheds. There are six of these cars, and they are now scattered about. and it is no easy task, at 9 o'clock at night, to readily find them. Then, there is an ill feeling growing up between the roads, one passenger agent claiming that one road has a better location than another. Placing all on the ninth track would put an end to alt talk of this character and at the same time be much more convenient for the patrons

of the several lines. A railroad man who was on board the train which was wrecked a few days ago on the Pennsylvania railway, near Rahway, says that in railway circles it is looked upon as being an unusually singular accident. A hole train was derailed, and not a passenger, hardly, bruised. The rear wheels of the locomotive hanting the train, through the spreading of the rails, dropped down to the ties, and the five coaches followed. The train ran along three hundred feet on the ties, when the couplings broke and each car took a course in different directions, tearing up the rails and ties and digging in the stone ballast as if an engine of had been through it. There are four tracks at this point, and the cars were twisted round in such shape as to blockade

Stables and Wood-Sheds Destroyed.

From some unknown carse, yesterday afternoon, a fire originated in a block of six stables and wood-houses situated in an alley between Lexington avenue and

to the small pressure of water the department experienced considerable difficulty in fighting the flames. A stable owned by W. B. Falkening was nearly destroyed, and a horse which was in the the flames. A stable owned stable at the time was burned to death.

The loss altogether is estimated at \$400.

John Courtenay and Andrew Webner's stables were damaged to the extent of \$100.

Wood-sheds owned by Peter Nolan, Jerry Avery and William Hoover were destroyed, the loss on the three being \$150. The total damage is covered by insurance.

The petite ingure of the bride was adorned with a simple, dainty Josephine gown of white. wedding dinner was served, and 8:30 o'clock Mr. and Mrs. Lines received their relatives and a very few close friends. Throughout the marriage was characterized by a sweet simplicity and quietness appropriate to the occasion.

The bride and groom left last night for their home in Chicago. Unlike most of the marriages this season, it takes the bride away from a large circle of friends to live in another city.

A quiet wedding took place yesterday afternoon at the residence of Mr. and Mrs. John Torrence, No. 407 North East street. The bride was their daughter, Nellie B. Torrence, and the groom Mr. Thomas R. Thornburg. The ceremony, which occurred at 3:30 o'clock, was performed by the Rev. Dr. J. A. Rondthaler, of the Tabernacle Presbyterian Church. Only the immediate friends were present. The bride and groom entered the parlor alone and stood in front of a bank of plants and flowers. The bride wore a handsome traveling costume of amethyst-colored Lansdowne, and had bonnet, gloves and wraps to match, for traveling. After the ceremony Mr. and Mrs. Thornburg left for the East on a two weeks' tour. Upon their return they will go to their own home, No. 731 North New Jersey street, where the house will be made ready for their coming. Many articles, the gifts of relatives and friends, will make it more beautiful in the way of firmishing for the presents were of way of furnishing, for the presents were of all descriptions, ornamental and useful. Mr. C. C. Lathrop, of Jackson, Mich., uncle of the bride, was among the limited number of guests.

CHANDLER-COOPER. At the spacious residence of Mr. and Mrs. W. D. Cooper, on College avenue, last evening, the largest home wedding of this season took place. Mr. and Mrs. Cooper gave their daughter Katharine to Mr. George E. Chandler, both of whom are well known and social favorites. All the rooms for the entertainment of guests were decorated with a profusion of plants and flowers. The mantels were banked and the chandeliers festooned with smilax. The bride and groom stood beneath a canopy of smilax and a true lover's knot of flowers. Miller's string orchestra played the wedding march, and during the ceremony. The bride's-maids, Miss Florence Conner, Miss May Johnson, Miss Bessie Cooper and Miss Ella Black, of Terre Haute, entered first. They wore beautiful gowns of China silk. The two former were in light blue, and carried boquets of Marechal Neil roses, and the latter were in pink and carried LaFrance roses. The bride wore an exquisite dress of white faille, garnitured with duchesse lace and carried Niphetos roses. She wore no veil or ornament. The groom was unattended. After taking their positions the marriage service was read by Rev. Dr. J. H. Ford, pastor of Central-avenue Church. As soon as the benediction was pronounced the friends gathered about them to offer

congratulations. In the dining-room a square table was prepared for the bridal party, together with Mr. and Mrs. Lew Cooper, The table ornamentation was a pyramid of flowers tastefully arranged. A second ta-ble was set for the parents and grandparents of each, and others for the guests. There were about one hundred and fifty alley between Lexington avenue and Pleasant street, east of Linden street. The alarm was turned in from Box 73. Owing present. Among those from abroad were the bride; Mrs. Chambers, grandparents of the bride; Mrs. Dempsey and Mrs. Chambers, of Danville; Miss Agnes and Miss

Nora Boiteaux, of New Castle; Miss Cooper, of Cadiz; Miss Showalters, of Kennard; Miss Lyon, of Plainfield; Dr. and Mrs. Kennedy, of Martinsville; Mrs. Black and daughters, Mr. and Mrs. John Harrison, Mr. and Mrs. Edson Kidder and Mr. Horace Wright, of Terre Haute. Mr. and Mrs. Chandler went to their own house, No. 528 Broadway. The entire furnishing was a gift from the bride's parents, and a great number of elegant presents from friends will add to the beauty and comfort of the house. The bride and groom will be at home after Nov. 1. at home after Nov. 1. M'LAUGHLIN-BOWDLE.

The Assault on Sister Camilla.

To the Editor of the Indianapolis Journal: Your article upon the mysterious assailant of Sister Camilla will doubtless be answered by a proper investigation of the case, which will show that her lover is an hallucination, and can only be found in her brain, and that her injuries were selfinflicted. This form of erotomania is not common, but two cases have occurred in Illinois within the past ten years; these were equally remarkable. One was a lady who taught a country school, and who had herself, after school was dismissed

in the evening, crawled up through small trap in the ceiling, injured herself and when found all the Mr. A. J. Another case was that of the daughter of a physician. She was found hanging by the neck in the dusk of the evening to a tree near her own door. She was cut down and restored. She accused a young man of having first assaulted her and then hanged her to the tree. The whole thing proved to be an hallucination, and the injuries self-inflicted. A most remarkable case

A Wonderful Cure of Aggravated Nervous Debility-Saved From a Lunatic Asylum-Gun Wa Receives Such Letters Every Day.

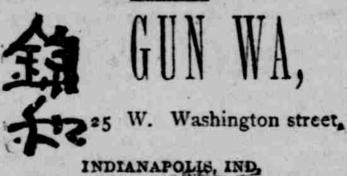

DR. GUN WA: My DEAR DOCTOR-In accordance with my promise (that if cured you would receive from me a strong indersement and testimonial). I write to in orm you I am entirely restored to hea'th. When I came to you in August I weighed but 120 pounds. I was com pletely run down. My nervous system was shattered, and it was impossible to sleep more than an hour at a time, when I would awake with a start, being all in a tre able and covered with prespiration. I was constantly dizzy, and had specks floating before my eyes. I was continually haunted with a dread that I would become insane. On your positive assurances that you could cure me I commenced your my life by so doing. From the first day I commenced to improve. My sleep was refreshing, my nervousness and night losses ceased, my appetite increased and I gained in flesh and strength every day, and I might say every hour. I now weigh 149 pounds, and feel as well as I ever did in my life, and I can not find words to express the gratitude I feel toward you. I am now back in the shop working at my trade (of machinist), and feeling that my cure is permanent. I write you this that you may show it to any sufferer. I inclose my picture and you have my full free permission to show it to anyone you may choose to. Again thaking you, I remain gratefully WM. M. JOBDEN.
